“ So sorry for your loss. I used to work with Charles at Walmart. He was great guy to work with. He wasn't afraid to work hard and take care of customers. I never heard him complain about much. Except when he had to run the cash register. We both hated that
He was a good friend. He will be missed!

“ Larry, Stacie and Dustin; I am truly sorry for your loss. Losing someone you love is never easy. I will keep you and your family in my prayers The one thing I've learned is that love never dies it transcends. Cherish and Share all the Love, Laughter and memories of him so that future generations of your family will know your Father/Grandfather and he will continue to live on.
